INDEPENDENT AUDITOR'S REPORT

Board of Directors Rubidoux Community Services District Jurupa Valley, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and the major fund of Rubidoux Community Services District (District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Controller's *Minimum Audit Requirements for California Special Districts*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Board of Directors
Rubidoux Community Services District

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America as well as accounting systems prescribed by the State Controller's Office and state regulatory governing special districts.

Emphasis of a Matter

Change in Accounting Principle

As discussed in Note 14 of the financial statements, the District adopted the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB).* Our opinion is not modified with respect to this matter.

The cumulative effects of applying the provisions of GASB Statement No. 75 have been reported as a restatement of beginning net position for the year ended June 30, 2019 in accordance with the Statement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the Schedule of Plan's Proportionate Share of Net Pension Liability and Related Ratios; Schedule of Plan Contributions; Schedule of Changes in the Net OPEB Liability and Related Ratios; Schedule of Contributions – OPEB; Schedule of Revenues, Expenditures and Changes in Fund Balances Budget and Actual – General Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of the changes in fund balances, financial trends and graphic financial comparisons, as listed in the table of contents, are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

Rogers, Anderson, Malody & Scott, LLP.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2019, on our consideration of Rubidoux Community Service District's internal control over financial report and on our tests of its compliance with certain provision of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Rubidoux Community Service District's internal control over financial reporting and compliance.

San Bernardino, California October 18, 2019

Rubidoux Community Services District Management's Discussion and Analysis (unaudited) June 30, 2019

Our discussion and analysis of Rubidoux Community Services District's (RCSD or District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2019. Please read it in conjunction with the accompanying basic financial statements.

Financial highlights

- The District's net position increased \$1,155,108 or 2.27%, as a result of this year's operations and non-operating activities, including capital contributions.
- Total revenues and capital contributions from all sources amounted to \$18.9 million.
- The cost of all District activities amounted to \$17.7 million.
- Operationally, the Water Fund provided \$1,209,094, the Sewer Fund used \$2,207 and the Solid Waste Disposal Fund provided \$78,833 to increase net position by \$1,285,720 in the enterprise funds. The total Governmental Activities decreased by \$130,612.

Using this annual report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities and performance of the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Activities. This statement measures the success of the District's operations over the past year and can be used to determine the District's profitability and credit worthiness.

Reporting the District as a whole

The Statement of Net Position and the Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that help answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues, capital contributions and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. You can think of the District's net position - the difference between assets and liabilities - as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, such as changes in the District's property tax base and the types of grants the District applies for to assess the overall financial health of the District.

These two statements are presented in three different reporting categories, as follows:

The first reporting measure is government-wide financial statements that provide both long-term and short-term information about the District's overall financial status - for both governmental and proprietary funds. The government-wide financial statements combine the structures of the two fund types used by the District - Governmental and Proprietary Funds.

Rubidoux Community Services District Management's Discussion and Analysis (unaudited) June 30, 2019

- The next reporting measure reflects governmental funds statements that tell how general government administration and services were financed in the short-term as well as what remains for future spending.
- The third and final reporting measure is proprietary fund statements that offer short and long-term financial information about the activities the District operates like businesses, such as the water, sewer, and solid waste disposal operations.

The governmental fund activities encompass general administrative responsibilities as well as administrative recording of fire protection and weed abatement efforts. Resultant financial data for these services, reflected in these financial statements, represents the net benefits flowing to the District.

Pensions

In government-wide financial statements, retirement plans (pensions) are required to be recognized and disclosed using the accrual basis of accounting (see Note 10 and the required supplementary information (RSI) section immediately following the Notes to the Financial Statements), regardless of the amount recognized as pension expenditures on the governmental fund statements, which use the modified accrual basis of accounting.

In general, the District recognizes a net pension liability, which represents the District's proportionate share of the excess of the total pension liability over the fiduciary net position of the pension reflected in the actuarial report provided by the California Public Employees' Retirement System (CalPERS).

The net pension liability is measured as of the District's prior fiscal year-end. Changes in the net pension liability are recorded in the period incurred as pension expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change. The changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience) are amortized over the weighted average remaining service life of all participants in the respective pension plan and are recorded as a component of pension expense beginning with the period in which they are incurred.

For purposes of measuring the net pension liability and deferred outflows/inflows or resources relating to pensions and pension expense, information about the fiduciary net position of the District's pension plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed basis five-year period of recognition.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 22 through 48.

The District as a whole

Our analysis focuses on the assets (Table 1) and changes in net position (Table 2) of the District as a whole:

Table 1
Assets, def. outflows, liabilities, def. inflows and net position, at year-end (in millions)

Total net position	\$4.5	\$4.8	\$28.3	\$27.3	\$ 18.8	\$ 18.9	\$0.4	\$0.3	\$ 52.0	\$ 51.3

The District's net position increase of 2.27% to \$52.0 million comes from the revenues and expense activity recorded in the Statement of Activities.

- Overall government-wide capital assets decreased \$1 million due to depreciation of capital assets.
- As a whole, long-term debt decreased \$765,667 due to principal payments on the Leland J. Thompson Water Facility loan and the water certificates of participation.
- Restricted Net Position increased \$0.4 million.

The District as a whole, continued

 Unrestricted Net Position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants or other legal requirements, increased \$0.7 million and amounted to \$6.4 million.

Financial analysis of the District's unrestricted cash

At year-end the District reported combined unrestricted cash balances of \$10.3 million, which is an increase of \$186,462 or 1.84% from last year. Note 2 of the financial statements provide additional detail on cash balances.

General Fund budgetary highlights

The Rubidoux Community Services District budget is prepared bi-annually. Over the course of the year, the Board reviews and revises its budget to reflect changes in programs, funding, and expenditure estimates. During fiscal year 2018-2019, no revisions were made to the District's general budget.

An analysis of the District's budget versus actual is provided as a supplemental statement of Revenue, Expenditures and Changes in Fund Balance - Budget and Actual.

The unfavorable variance of \$130,126 in property tax revenue is primarily due to the District over-estimating their anticipated property tax revenues in their final budgeted amount. The unfavorable variance of \$615,004 in salaries and benefits and services and supplies is primarily due to the retirement of a few long-time District employees and payout of their compensated absences obligation, along with other expense increases in general supplies, postage and computer system support not anticipated in the original budget.

Rubidoux Community Services District Management's Discussion and Analysis (unaudited) June 30, 2019

Capital asset and debt administration

Capital assets

At June 30, 2019, the District had \$42 million invested in a broad range of capital assets for infrastructure and facilities. (See Note 5.) (See Table 3 below.) This amount represents a net decrease of \$1.1 million, or 2.39%, below last year.

Table 3
Capital assets, at year-end (in millions)

Rubidoux Community Services District Management's Discussion and Analysis (unaudited) June 30, 2019

Economic factors and next year's comments

There are several factors influencing the economy of the Rubidoux Community Services District (District). The District continues to stress water conservation efforts even in light of abundant local water supplies. In 2009, Governor Schwarzenegger signed the Water Conservation Act (AB 2175) which requires water suppliers to reduce statewide per capita water use by 20% by year 2020. Governor Brown issued a drought state of emergency order number B-29-15 on April 1, 2015, increasing the State's water conservation efforts to 25%. In 2016, the State eased the mandatory conservation burden by allowing each agency to self-certify the reliability of their water supplies. The District was able to reduce our conservation level to 0%. In 2019, AB 1668 and SB 606 became law. The effect of those bills is to limit and reduce indoor water usage, force enhanced conservation requirements, and emphasis water conservation as the new normal in California.

Home development planning and construction within the District has increased. Recently, developers for the Rio Vista project, a proposed development of approximately 1,400+ homes north of highway 60 are moving forward with annexation proceedings. The long dormant Emerald Meadows Ranch, originally proposed as a 1,000+ home development, has re-emerged as a proposed commercial and industrial project. The Highland Park development, a community of approximately 430+ homes north of highway 60 has completed annexation proceedings and appears to be the most active.

In 2018, the State imposed new water quality regulations for 1,2,3-Trichloropropane (TCP) in the potable water system. This new regulation has caused the District to add treatment to Well 2 (two vessels purchased for \$154,000 in June 2019) and commence the construction of a treatment addition to Well 4 (\$325,000). Additionally, the new regulations have forced the District to advance the construction of a new potable water well, Well 1A (\$452,000). Other emergent water quality concerns such as PFAS are requiring the District to consider further treatment options.

A contract for the construction of the replacement Jurupa Hills lift station was awarded by the Board in June 2019. The lift station cost estimate is \$650,000 and should be completed before the end of FY 19/20.

District management continues to be proactive in planning for future growth with new and replacement infrastructure. Enrichment of these District assets will provide for continued solid financial strength into the future.

Contacting the District's financial management

This financial report is designed to provide our citizens, customers and creditors with a general overview of the District's finances and to show the District's commitment to accountability. If you have any questions about this report or need additional financial information, contact the District's Accounting Department at Rubidoux Community Services District, 3590 Rubidoux Blvd., Jurupa Valley, CA 92509.

Non-cash operating, noncapital and capital and related financing, and investing activities:

None None None

Rubidoux Community Services District was organized under the provisions of the State of California on November 24, 1952. The District operates under a governing Board of Directors and provides the following services: fire protection, sewer service, solid waste disposal (trash billing and collection), weed control, water service and street lighting. The financial statements of the District have been prepared in conformity with Accounting Principles Generally Accepted in the United States of America (GAAP) as applied to enterprise funds of governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also follows the Uniform System of Accounts as prescribed by the Controller of the State of California.

The accompanying financial statements present the activities of the District. There are no component units included in this report which meet the criteria of any applicable Governmental Accounting Standards Board Statements.

Basis of Presentation and Basis of Accounting

Basis of Presentation

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

Fund Accounting

The financial activities of the District are recorded in individual funds, each of which is deemed to be a separate accounting entity. The District uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The financial activities of the District that are reported in the accompanying financial statements have been classified into the following major governmental and proprietary funds.

Governmental Funds

General Fund

This fund accounts for all activities of the District not specifically required to be accounted for in other funds. This fund primarily reflects general administrative type activities associated with overall management and record keeping for the District and contracted fire services.

Basis of Presentation and Basis of Accounting, continued

Proprietary Funds

When the District charges for services it provides, these services are reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position.

Proprietary fund operating revenues and expenses are related to providing water, waste-water (sewer), and solid waste disposal services to the residents and businesses of the District. Revenue and expenses arising from capital and non-capital financing activities are presented as non-operating revenues and expenses.

The District has the following major proprietary funds:

 Water, sewer, and solid waste disposal funds. These funds account for the activities of the District's water supply system, pumping stations, collection systems and contracted sewer capacity arrangements, as well as contracted solid waste disposal operations.

Basis of Accounting

These statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balance for all major governmental funds. Accompanying these statements is a schedule to reconcile and explain the differences in fund balances as presented in these statements to the net position presented in the government-wide financial statements.

Governmental funds are accounted for on a spending or current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under modified accrual basis of accounting, revenues are recognized in the accounting period in which they become measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60-days after year-end) are recognized when due. The primary sources susceptible to accrual for the District are property tax, interest earnings, investment revenue and operating and capital grant revenues. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Government-wide, governmental-net position and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes apply. Property taxes are collected for the District by the County of Riverside. Revenue from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Basis of Presentation and Basis of Accounting, continued

At the beginning of each fiscal year the District files an itemized estimate of anticipated revenue, other than current taxes, and of estimated expenditures for the General Fund with the Riverside County Auditor Controller.

The District's primary sources of revenue are from property taxes levied and controlled by Riverside County and billings by the District's Water Department. Other receipts are from Sewer Service and Solid Waste Disposal and Augmentation Funds from the State of California.

The District's Board of Directors approves total budgeted appropriations and expenditures on a bi-annual basis with annual adjustments on an as needed basis. The District adopts the budget on a basis consistent with generally accepted accounting principles (GAAP) of the United States of America. Only the Board of Directors is authorized to transfer or revise budget amounts of any fund.

Unused appropriations for all the annually budgeted funds lapse at the end of the fiscal year.

The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.

Financial Statement Elements

Cash and Cash Equivalents

For the purpose of reporting cash flows, cash and cash equivalents include cash on hand, money market accounts, deposits with financial institutions and deposits in the State of California Local Agency Investment Fund and other investments with initial maturities of three months or less. Deposits in the Local Agency Investment Fund can be withdrawn at any time.

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized basis. LAIF has a maximum transaction limit of 15 per month with a minimum amount of \$5,000. Any withdrawal of \$10,000,000 requires 24 hour notice.

Credit/Market Risk

The District provides water and wastewater services to local residential and commercial customers. As part of normal operating practices, credit is granted to local customers, on an unsecured basis.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in possession of another party. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

Financial Statement Elements, continued

The California Government Code requires California banks and savings and loan associations to secure a district's deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of a district's deposits. California law also allows financial institutions to secure direct deposits by pledging first trust deed mortgage notes having a value of 150% of a district's total deposits. The District may waive collateral requirements for deposits which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC).

Accounts Receivable

The District extends credit to customers in the normal course of operations. Management review all accounts receivable as collectible; however, certain accounts are delinquent and an allowance for doubtful accounts has been recorded.

Property Taxes and Assessments

The Riverside County Assessor's Office assesses all real and personal property within the County each year. The Riverside County Tax Collector's Office bills and collects the District's share of property taxes and/or tax assessments. The Riverside County Treasurer's Office remits current and delinquent property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article 13A of the State Constitution at one percent (1%) of countywide assessed valuations. Property taxes and assessments receivable at year-end are related to property taxes and special assessments collected by the Riverside County, which have not been credited to the District's cash balance as of June 30. The property tax calendar is as follows:

Lien date March 1 Levy date July 1

Due dates November 1 and February 1
Collection dates December 10 and April 10

Prepaid Expenses

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

Materials and Supplies Inventory

Materials and supplies inventory consists primarily of materials used in the construction and maintenance of the District's water and wastewater systems and is valued at the lower of cost, using the first-in, first-out method.

Deferred Charges

Deferred charges (discount on COP's) are reported net of accumulated amortization. The costs are amortized on the straight-line method based on the estimated term of the related debt. Amortization expense is recorded to interest expense in the financial statements.

Financial Statement Elements, continued

Restricted Assets

Various resources of the District are limited as to their use by law or by debt covenants and are classified on the balance sheet as restricted assets. Undisbursed debt proceeds are restricted for repayment of the debt. Also, fees imposed on new real estate developments are restricted by law for the construction of capital improvements which benefit the development projects.

Capital Assets

Capital assets purchased or constructed with a value over \$5,000 and a useful life of 3 or more years are carried at historical cost. Constructed costs include labor, materials and construction period interest expense (net of interest income). Contributed assets are stated at estimated fair market value at the time received by the District. Donated capital assets are recorded at acquisition value at the date donated.

Depreciation is calculated on the straight-line method over the estimated useful lives of the properties, ranging from five to fifty years, as follows:

Governmental Activities

- Land improvements 30 years
- Structures and equipment 3 to 30 years

Business-Type Activities

- Land improvements 30 years
- Structures and improvements 5 to 30 years
- Water transmission and distribution systems 50 years
- Wastewater collection systems 50 years
- Vehicles and equipment 5 to 15 years

Compensated Absences

Vested or accumulated vacation and sick leave is recorded as an expense and liability as benefits accrue to employees.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date June 30, 2017 Measurement Date June 30, 2018

Measurement Period July 1, 2017 to June 30, 2018

Financial Statement Elements, continued

Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date June 30, 2018 Measurement Date June 30, 2018

Measurement Period July 1, 2017 to June 30, 2018

Deferred Inflows/Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has two items which qualifies for reporting in this category: pensions and OPEB. This amount is deferred and recognized as an outflow of resources in the period that the amount becomes available.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has two items which qualifies for reporting in this category: pensions and OPEB. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Net Position

The government-wide financial statements utilize a net position presentation. Net position categories are as follows:

- Net Investment in Capital Assets. This component of net position consists of capital assets, net of accumulated depreciation and reduced by any outstanding debt outstanding against the acquisition, construction or improvement of those assets.
- Restricted Net Position. This component of net position consists of externally constrained resources imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position. This component of net position consists of net position that does not meet the definition of restricted or net investment in capital assets.

It is the government's policy to consider restricted - net position to have been depleted before unrestricted net position is applied.

Financial Statement Elements, continued

Fund Balance

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form - prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications; restricted, committed, assigned, and unassigned.

- Restricted Fund Balance. This classification reflects the constraints imposed on resources either (a)
 externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b)
 imposed by law through constitutional provisions or enabling legislation.
- Committed Fund Balance. These amounts can only be used for specific purposes pursuant to
 constraints imposed by formal resolutions or ordinances of the District the government's highest
 level of decision making authority. Those committed amounts cannot be used for any other purpose
 unless the District removes the specified use by taking the same type of action imposing the
 commitment. This classification also includes contractual obligations to the extent that existing
 resources in the fund have been specifically committed for use in satisfying those contractual
 requirements.
- Assigned Fund Balance. This classification reflects the amounts constrained by the District's "intent"
 to be used for specific purposes, but are neither restricted nor committed. The District has the
 authority to assign amounts to be used for specific purposes. Assigned fund balances include all
 remaining amounts (except negative balances) that are reported in governmental funds, other than
 the General Fund, that are not classified as nonspendable and are neither restricted nor committed.
- Unassigned Fund Balance. This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use externally restricted resources first, then unrestricted resources - committed, assigned, and unassigned - in order as needed.

Utility Sales

Utility sales are billed on a monthly basis. Estimated unbilled utility revenue through June 30 has been accrued at year-end for the enterprise funds.

Capital Contributions

Capital contributions represent cash and capital asset additions contributed to the District by property owners, granting agencies or real estate developers desiring services that require capital connection expenditures or capacity commitment.

Financial Statement Elements, continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

New Accounting Pronouncements

The following new pronouncements may have an effect on the District when implemented:

Government Accounting Standards Board Statement No. 84

GASB Statement No. 84, *Fiduciary Activities*, is effective for periods beginning after December 15, 2018.

Government Accounting Standards Board Statement No. 87

GASB Statement No. 87, Leases, is effective for periods beginning after December 15, 2019.

Government Accounting Standards Board Statement No. 89

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, is effective for periods beginning after December 15, 2019.

Government Accounting Standards Board Statement No. 90

GASB Statement No. 90, *Majority Equity Interests – an amendment of GASB Statements No. 14 and 61* is effective for periods beginning after December 15, 2018.

Government Accounting Standards Board Statement No. 91

GASB Statement No. 91, Conduit Debt Obligations is effective for periods beginning after December 15, 2020.

Note 2: Cash and Cash Equivalents

Cash and investment balances are presented in the financial statements as follows:

Authorized investments

The District's investment policy allows it to invest in US Treasury Bill, Notes, Bonds, US Agency obligations, Local Agency Investment Fund, certificates of deposit, money market mutual funds, commercial paper and savings accounts with certain limitations as explained in the policy.

Fair value measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs: Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2019:

- Local Agency Investment Fund (General Fund, \$2,727,804, Water \$11,745,596 and Sewer \$2,709,222) of \$17,182,622 is valued at net asset value (LAIF is not subject to the fair value hierarchy).
- Certificates of Deposit (General Fund, \$170,000, Water \$2,185,000, Sewer \$1,200,000) of \$3,555,000 are valued at Level 2 Significant Other Observable Inputs.

Note 3: Restricted Assets

The District is required to maintain reserve funds for debt service on outstanding bonds payable and certificates of participation. The following reflects reserve funds for the outstanding debt arrangement and all other restricted assets. Restricted cash funds consisted of the following on June 30, 2019:

	Amount		
Governmental:			
Fire mitigation	\$	1,380,881	
Business-type:			
Certificates of Participation - Series 1998:			
Funds held by fiscal agent in bond reserve		760,427	
Other District funds held for connection/capacity fees and other future uses, as well as receivable amounts			
due as contribution capital:			
Sewer connection/capacity fees		3,284,564	
Water connection fees		2,558,892	
Water - COP's		2,538,527	
Water - capital replacement		549,603	
Water - field/admin		484,950	
Total business-type restricted assets		10,176,963	
Total restricted assets	\$	11,557,844	

Restricted cash and receivable connection/capacity/improvement project fees for each designated purpose is as follows at June 30, 2019:

	 Water		Sewer	 Fire Mitigation	Total		
Restricted cash - current Restricted cash - non-current Reserve funds	\$ - 6,131,972 760,427	\$	- 3,284,564 -	\$ 1,380,881 - -	\$	1,380,881 9,416,536 760,427	
Total	\$ 6,892,399	\$	3,284,564	\$ 1,380,881	\$	11,557,844	

Note 4: Accounts Receivable

The detail of accounts receivable is as follows at June 30, 2019:

		Amount
Governmental Wood shatement		
Weed abatement Property assessments for weed abatement		\$ 4,774
. ,		
Governmental Fund taxes/developer charge backs		 109,133
Total governmental		113,907

Note 6: Reconciliation of Interfund Receivables and Payables

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement.

Interfund balances are as follows as of June 30, 2019:

	Due To								
Due From	Gene	General Fund		Water Fund		Sewer Fund		Total	
General Fund	\$	-	\$	1,273,190	\$	(1,866,309)	\$	(593,119)	
Water Utility Fund	(1	,273,190)		-		953,554		(319,636)	
Sewer Utility Fund	1	,866,309		(953,554)				912,755	
Total	\$	593,119	\$	319,636	\$	(912,755)	\$		

Interfund transfers consist of operating transfers from funds receiving revenue to funds through which the resources are expended. The Solid Waste fund transferred \$48,813 to the General Fund.

Note 7: Real Properties

Properties owned by the District are as follows:

Property Site - Wilson Street and Agua Mansa Boulevard
Treatment Plant (approximately 10 acres)
Main Office - 3590 Rubidoux Boulevard
Field Office Building - Pacific Street at
Riverview Avenue
9 water well sites
Vacant lot - South Sedona Drive
Vacant lot - Mission Avenue

Vacant lot - Golden West Avenue Nitrate Wellhead Treatment Facility Manganese Treatment Facility Well sites #17 & #18 - 34th Street Fort Fremont Parcel Land adjacent to District Office Goldenwest Reservoir Site 7 Reservoir tanks Mission / Avalon Fire Station

Note 8: Long-term Liabilities

Below is a schedule of the changes in long-term liabilities for the year ended June 30, 2019:

	Beginning Balance	Additio	ns	 eletions	Ending Balance		ue within ne year
Business-type activities:							
Water Utility Fund:							
Other Debt:							
1998 Certificates of Participation Less: unamortized discount	\$ 4,170,000 (29,499)	\$	-	\$ (510,000) 4,598	\$	3,660,000 (24,901)	\$ 535,000
Direct Borrowings:							
Note payable - State Drinking							
Water	4,631,808			 (246,702)		4,385,106	 253,084

Sewer Utility Fund:							
Direct Borrowings:							
Note payable - State Drinking							
Water	13,564			 (13,564)		-	 -
Total Business-type	\$ 8,785,873	\$		\$ (765,668)	\$	8,020,205	\$ 788,084

Certificates of Participation – Other Debt

On June 1, 1998, the District issued Certificates of Participation (COP) in the amount of \$10,595,000 to advance refund the District's COP Series 1995 and to make improvements to the municipal water system.

In the case of default, the trustee may, with the consent of the certificate insurer and upon written notice from the owners of not less than 25% in aggregate principal amount of the Certificates at the time outstanding shall upon notice in writing to the District, exercise any and all remedies available pursuant to law or granted with respect to the installment sale agreement. In the event of any acceleration of the principal of the Certificates, the insured payments will be made at such times and in such amounts as would have been made had there not been an acceleration.

Maturities of the certificates of participation are as follows:

Fiscal year	1998 Series Certificates of Participation						
ending June 30,	Principal		Interest		Total		
2020 2021 2022 2023	\$ 535,000 565,000 590,000 625,000	\$	173,018 144,968 115,515 84,533	\$	708,018 709,968 705,515 709,533		
2024 2025	655,000 690,000		51,893 17,595		706,893 707,595		
Total	\$ 3,660,000	\$	587,522	\$	4,247,522		

Note 8: Long-term Liabilities, continued

Note Payable - Direct Borrowing

The District entered into an agreement with the California Department of Public Health for a Safe Drinking Water State Revolving Fund loan in October 2010. The original agreement provided for a \$5,667,200 twenty-year loan at a 2.5707% interest rate for the purpose of financing construction projects to meet safe drinking water standards. This project was the construction of the Leland J. Thompson Water Facility. The note from direct borrowings are secured with collateral from net revenues from the Water Enterprise fund. In the event of default, outstanding amounts become immediately due if the District is unable to make payment and any further obligations of the State to make disbursements to the District will terminate.

Maturities of the note payable are as follows:

Fiscal year	State of California Note Payable						
ending June 30,	Principal		Interest		Interest		Total
2020 2021 2022	\$ 253,084 259,632 266,349	\$	111,112 104,564 97,847	\$	364,196 364,196 364,196		
2023 2024 2025 - 2029 2030 - 2034	273,240 280,310 1,514,155 1,538,336		90,956 83,886 306,825 100,549		364,196 364,196 1,820,980 1,638,885		
Total	\$ 4,385,106	\$	895,739	\$	5,280,845		

Note 9: Compensated Absences

In concurrence with the Districts' Memorandum of Understanding (MOU), dated July 1, 2018, employees accumulate earned but unused vacation, sick leave and comp time, a portion of which will be paid to employees upon separation from the District. Once a year, the District "cashes out" to employees their sick leave hours in excess of 600 hours. All appropriate accruals were recorded in the respective funds. Accrued balances at June 30, 2019 were as follows:

	Beginning Balance	Additions	Deletions	Ending Balance	Due within One Year
Governmental Activities	\$ 527,453	\$ -	\$ (282,199)	\$ 245,254	\$ 61,314
Business-Type Activities:					
Water	218,704	32,383	-	251,087	62,772
Sewer	6,511	1,822	-	8,333	2,083
Total Business-Type Activities	225,215	34,205		259,420	64,855
Total Compensated Absences	\$ 752,668	\$ 34,205	\$ (282,199)	\$ 504,674	\$ 126,169

Note 10: Pension Plan

A. General Information about the Pension Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all other). Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The District sponsors three rate plans (two miscellaneous and one safety). Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website, at www.calpers.ca.gov.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plan operates under the provisions of the California Public Employees' Retirement Law (PERL), the California Public Employees' Pension Reform Act of 2013 (PEPRA), and the regulations, procedures and policies adopted by the CalPERS Board of Administration. The Plan's authority to establish and amend the benefit terms are set by the PERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the CalPERS Board.

A. General Information about the Pension Plan, continued

Benefits Provided, continued

The Plan's provisions and benefits in effect at June 30, 2019 are summarized as follows:

	Miscella	aneous
	Prior to	On or after
Hire date	_January 1, 2013	January 1, 2013
Benefit formula	3% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50-55	52-67
Monthly benefits, as a % of eligible compensation	2.0% to 2.7%	1.0% to 2.5%
Required employer contribution rates for 2019	13.439%	6.842%

	Safety*		
	Prior to	On or after	
Hire date	January 1, 2013	January 1, 2013	
Benefit formula	3% @ 50	2.7% @ 57	
Benefit vesting schedule	5 years service	5 years service	
Benefit payments	monthly for life	monthly for life	
Retirement age	50	50-57	
Monthly benefits, as a % of eligible compensation	3.0%	2.0% to 2.7%	
Required employer contribution rates for 2019	0.000%	0.000%	

^{*}As of 1990, the District elected to contract its fire services and no longer has safety employees.

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions. Employer Contributions to the Plan for the fiscal year ended June 30, 2019 were \$536,247. The actual employer payments of \$432,726 made to CalPERS by the District during the measurement period ended June 30, 2018 differed from the District's proportionate share of the employer's contributions of \$558,922 by \$126,196, which is being amortized over the expected average remaining service lifetime in the Public Agency Cost-Sharing Multiple Employer Plan.

B. Net Pension Liability

The District's net pension liability for each Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of each Plan is measured as of June 30, 2018, using an annual actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is as follows.

B. Net Pension Liability, continued

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

Funds

Post Retirement Benefit Increase Contract COLA up to 2.0% until purchasing power

protection allowance floor on purchasing power

applies, 2.75% thereafter

(1) Annual increases vary by category, entry age, and duration of service

(2) The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

All other actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website, at www.calpers.ca.gov.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

B. Net Pension Liability, continued

Long-term Expected Rate of Return, continued

The expected real rates of return by asset class are as follows:

Asset Class ¹	New Strategic Allocation	Real Return Years 1 - 10 ²	Real Return Years 11+ ³
Global equity	50.0%	4.80%	5.98%
Fixed income	28.0%	1.00%	2.62%
Inflation assets	0.0%	0.70%	1.81%
Private equity	8.0%	6.30%	7.23%
Real assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	(0.92%)
Total	100.0%		

¹ In the System's CAFR, fixed income is included in global debt securities; liquidity is included in short-term investments; inflation assets are included in both global equity securities and global debt securities.

Change of Assumptions

In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate.

Discount Rate

The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

Information about the pension plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position are presented in CalPERS' audited financial statements, which are publicly available reports that can be obtained at CalPERS' website, at www.calpers.ca.gov. The plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis used by the pension plan, which is the economic resources measurement focus and the accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

² An expected inflation of 2.0% used for this period

³ An expected inflation of 2.92% used for this period

B. Net Pension Liability, continued

Pension Plan Fiduciary Net Position, continued

The plan fiduciary net position disclosed in the GASB 68 accounting valuation report may differ from the plan assets reported in the funding actuarial valuation report due to several reasons. First, for the accounting valuations, CalPERS must keep items such as deficiency reserves, fiduciary self-insurance and Other Post-Employment Benefits (OPEB) expense included as assets. These amounts are excluded for rate setting purposes in the funding actuarial valuation. In addition, differences may result from early Comprehensive Annual Financial Report closing and final reconciled reserves.

C. Proportionate Share of Net Pension Liability

The following table show the Plan's proportionate share of the net pension liability over the measurement period.

	Increase (Decrease)					
		Plan Total	F	Plan Fiduciary	Pla	an Net Pension
	Pe	Pension Liability		Net Position		Liability
		(a)		(b)		(c) = (a) - (b)
Balance at: 6/30/2017 (Valuation Date)	\$	18,495,043	\$	13,962,309	\$	4,532,734
Balance at: 6/30/2018 (Measurement Date)	\$	18,818,017	\$	14,330,629	\$	4,487,388
Net Changes During 2017-2018	\$	322,974	\$	368,320	\$	(45,346)

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2018, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 using standard update procedures. The District's proportion of the net pension liability was determined by CalPERS using the output from the Actuarial Valuation System and the fiduciary net position, as provided in the CalPERS Public Agency Cost-Sharing Allocation Methodology Report, which is a publicly available report that can be obtained at CalPERS' website, at www.calpers.ca.gov. The District's proportionate share of the net pension liability for the Plan as of the June 30, 2017 and 2018 measurement dates was as follows:

Proportionate Share of NPL - June 30, 2017	0.0457%
Proportionate Share of NPL - June 30, 2018	0.0466%
Change - Increase (Decrease)	0.0009%

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate:

	Discount Rate - 1% (6.15%)		Current Discount Rate (7.15%)	Discount Rate + 1% (8.15%)		
Plan's Net Pension						
Liability	\$	7,044,913	\$ 4,487,388	\$	2,380,133	

C. Proportionate Share of Net Pension Liability, continued

Subsequent Events

There were no subsequent events that would materially affect the results presented in this disclosure.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected

and actual earnings

5 year straight-line amortization

All other amounts

Straight-line amortization over the expected average remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the Public Agency Cost-Sharing Multiple-Employer Plan (PERF C).

The EARSL for PERF C for the measurement period ending June 30, 2018 is 3.8 years, which was obtained by dividing the total service years of 516,147 (the sum of remaining service lifetimes of the active employees) by 135,474 (the total number of participants: active, inactive, and retired). Note that inactive employees and retirees have remaining service lifetimes equal to 0. Also note that total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund. Recognition of Gains and Losses, continued

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

As of the start of the measurement period (July 1, 2017), the District's net pension liability is \$4,532,734. For the measurement period ending June 30, 2018 (the measurement date), the District incurred a pension expense of \$668,508.

As of June 30, 2019, the District has deferred outflows and deferred inflows of resources related to pensions as follows:

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions, continued

	ed Outflows	red Inflows Resources
Differences Between Expected and		
Actual Experience	\$ 147,681	\$ (39,765)
Changes of Assumptions	488,528	(104,047)
Net Difference Between Projected and		
Actual Earnings on Pension Plan		
Investments	24,835	-
Change in Employer's Proportion	190,847	(57,478)
Difference in Actual vs Projected Contributions	-	(168,073)
Pension Contributions Subsequent to		
Measurement Date	536,247	-
Total	\$ 1,388,138	\$ (369,363)

These amounts above are net of outflows and inflows recognized in the 2017-2018 measurement period expense. The \$536,247 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the upcoming fiscal year ended. Amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

	Deferred
Measurement Period Ended June 30:	Outflows/(Inflows) of Resources, Net
2019	\$ 404,227
2020	242,671
2021	(127,010)
2022	(37,360)
2023	-
Remaining	-

E. Payable to the Pension Plan

At June 30, 2019, the District reported a payable of \$10,659 for the outstanding contributions to the pension plans required for the year ended June 30, 2019.

Note 11: Other Post-Employment Benefits (OPEB)

Plan Description

The District has established a single-employer Retiree Healthcare Plan (HC Plan). This coverage is available for employees who reach the CalPERS minimum retirement age.

Benefits Provided

The District's current contribution cap is \$196 per month per retiree, approved through Board Resolutions 560 and 641. Changes to benefit terms can only be established/amended by the Board of Directors.

Employees Covered

As of the June 30, 2018 actuarial valuation, the following employees were covered by the benefit terms under the HC Plan:

Active employees	22
Inactive employees or beneficiaries currently receiving benefits	4
Total	26

Contributions

The HC Plan and its contribution requirements are established by the Board of Directors and may be amended by the Board of the Directors. For the fiscal year ended June 30, 2019, the District's cash contributions were \$9,408 in payments for insurance premiums not reimbursed by a trust.

Net OPEB Liability

The District's net OPEB liability was valued and measured as of June 30, 2018, based on the following actuarial methods and assumptions:

Actuarial Assumptions:

Discount Rate 3.80%
Inflation 2.75% per year
Salary Increases 2.75% per year
Investment Rate of Return 3.80%

Mortality Rate (1) 2014 CalPERS Active Mortality for Miscellaneous Employees

Pre-Retirement Turnover Healthcare Trend Rate (2) 2009 CalPERS Rates for Miscellaneous Employees

⁽¹⁾ The mortality assumptions are based on the 2014 CalPERS Active Mortality for Miscellaneous Employees table created by CalPERS. CalPERS periodically studies mortality for participating agencies and establishes mortality tables that are modified versions of commonly used tables. This table incorporates mortality projection as deemed appropriate based on CalPERS analysis.

⁽²⁾ The turnover assumptions are based on the 2009 CalPERS Rates for Miscellaneous Employees table created by CalPERS. CalPERS periodically studies the experience for participating agencies and establishes tables that are appropriate for each pool.

Note 11: Other Post-Employment Benefits (OPEB), continued

Discount Rate

The discount rate used to measure the total OPEB liability was 3.80%. The District is currently financing its OPEB liability on a pay-as-you-go basis.

Changes in the OPEB Liability

The changes in the net OPEB liability for the HC Plan are as follows:

	Total OPEB Liability (a)			Plan iciary Net sition (B)	Liab	et OPEB ility/(Asset) = (a) - (b)
Balance at June 30, 2017	\$	480,400	\$	-	\$	480,400
Changes recognized for the measurement period:						
Service Cost		23,658		-		23,658

Balance at June 30, 2018 (measurement date)	\$	512,515	\$	_	\$	512,515

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2018:

	1% Decrease 2.80%		Disc	count Rate 3.80%	1% Increase 4.80%			
Net OPEB Liability	\$	608,317	\$	512,515	\$	437,226		

Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the net OPEB liability of the District if it were calculated using a health care cost trend rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2018:

				Current		
			H	ealthcare		
			Co	ost Trend		
	1%	Decrease		Rates	1%	6 Increase
Net OPEB Liability	\$	435,338	\$	512,515	\$	590,260

Note 11: Other Post-Employment Benefits (OPEB), continued

OPEB Expense

For the fiscal year ended June 30, 2019, the District recognized an OPEB expense of \$42,160. As of fiscal year ended June 30, 2019, the District reported deferred outflows of resources related to OPEB from the following sources:

	De	ferred	Def	erred
	Ou	tflows	Inf	lows
	of Re	sources	of Res	sources
OPEB contributions subsequent				
to measurement date	\$	9,408	\$	-

Note 12: Contributed Capital/Financing Arrangement

On a cumulative basis, contributed capital received by the District in prior periods and during the current fiscal year is summarized as follows:

	Governmental	Water	Sewer	Total
Cumulatively to June 30, 2018 Fiscal year, June 30, 2019	\$ 4,426,019 	\$10,648,046 <u>-</u>	\$ 20,644,482 <u>-</u>	\$35,718,547 <u>-</u>
Total	\$ 4,426,019	\$10,648,046	\$20,644,482	\$35,718,547

Note 13: Commitments and Contingencies

Litigation

During the fiscal year 2014, a case was filed by the City of Riverside for a declaratory relief action seeking to require the District's financial participation in Riverside's Regional Sewage Treatment Plant. The District intends to vigorously defend the action. The fiscal impact is still unknown, therefore has not been accrued, but could be a maximum of \$15,000,000 if Riverside prevails, on appeal.

Note 14: Prior Period Restatement

Change in Accounting Principle

The District implemented GASB Statement No. 75 (GASB 75) effective July 1, 2017. GASB 75, among other provisions, amended prior guidance with respect to the reporting of postemployment benefits other than pensions (OPEB). GASB 75 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses. The District's net OPEB liability was not previously recorded on the Statement of Net Position. GASB 75 requires that accounting changes adopted to conform to the provisions of the Statement be applied retroactively by restating financial statements.

Note 14: Prior Period Restatement (continued)

The cumulative effects of applying the provisions of GASB 75 have been reported as a restatement of beginning net position for the year ended June 30, 2019 in accordance with the Statement as follows:

	-	ernmental .ctivities Water Utility Se			Sewer Utility	Total		
Net position, beginning of year, as previously stated Restatement due to change in	\$	4,869,480	\$	27,294,871	\$	18,823,398	\$ 329,740	\$ 51,317,489
accounting principle		(225,788)		(225,788)		(28,824)	 	 (480,400)
Net position, beginning of year, as restated	\$	4,643,692	\$	27,069,083	\$	18,794,574	\$ 329,740	\$ 50,837,089

Notes to Schedule:

Change in Benefit Terms: None

Changes in Assumptions: In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. In 2017, the accounting discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

Rubidoux Community Services District Notes to Required Supplementary Information For the year ended June 30, 2019

Note 1: Schedule of Revenues and Expenditures - Budget and Actual:

The District maintains its accounting records on a budgetary basis which differs from the basis used for financial statement purposes in the accompanying statement. The financial statements have been prepared using the modified accrual basis of accounting as prescribed by generally accepted accounting principles. This budget is used throughout the year and compared with internal accounting reports prepared using the same method of accounting.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

Board of Directors Rubidoux Community Services District Jurupa Valley, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the business-type activities, and each major fund of Rubidoux Community Services District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Rubidoux Community Services District's basic financial statements, and have issued our report thereon dated October 18, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Rubidoux Community Services District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rubidoux Community Services District's internal control. Accordingly, we do not express an opinion on the effectiveness of Rubidoux Community Services District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses.

Board of Directors Rubidoux Community Services District

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and responses to be a material weakness, reference number 2019-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Rubidoux Community Services District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Response to Findings

The District's responses to findings identified in our audit are described in the accompanying schedule of findings and responses. The District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

San Bernardino, California October 18, 2019

Finding 2019-001

Material Weakness in Internal Control over Financial Reporting - Inadequate Segregation of Duties

Criteria and Condition

During our audit of the District, we noted a lack of segregation of duties in the District's accounting process. Proper segregation of duties dictates that the functions of recording, authorization, custody and execution are not dominated by one individual. An adequate segregation of duties requires that one individual does not handle a transaction from its inception to its completion. Adequately segregated duties helps to reduce the possibility of fraud and defalcations from occurring and to ensure the integrity of the information provided by the District's financial reporting system.

Context

We observed inadequate segregation of duties by performing observations of processes and interviews of personnel and management.

Effect or Potential Effect:

Without sufficient segregation of duties, the risk significantly increases that errors and fraud related to financial reporting, including misappropriation of assets, could occur and not be detected within a timely basis.

Auditor's Recommendation

As stated above, an adequate segregation of duties requires that one individual does not handle a transaction from its inception to its completion. However, we realize that this is due to the limited number of individuals available to the District to perform numerous, and sometimes incompatible duties. Unless more personnel are hired, there may be no practical corrective action possible for this inherent weakness. We believe it is important for management and the Board of Directors to be aware that whenever a limited number of people are in control of the accounting process, the system is far more susceptible to errors or other irregularities, either intentional or unintentional, not being discovered.

Views of Responsible Officials and Planned Corrective Actions

Management recognizes the auditor's concerns and continues to work on its segregation of duties with the goal of one day removing the comment entirely from the management letter. It is not uncommon for a District our size to have limited staff, however the District will continue to access and strengthen internal controls to the extent possible.

Rubidoux Community Services District Schedule of Prior Findings and Responses For the year ended June 30, 2019

Finding No.	<u>Topic</u>	Status of Corrective Action
2018-001	Segregation of duties	Finding repeated in current year as 2019-001
