Rubidoux, CA 92509

RE: Annual Rate Adjustment 2025

Dear Mr. Laddusaw:

Please accept this as Burrtec's formal request for the 2025 annual rate adjustment. Attached are the rate review worksheets detailing the consumer price index adjustments as well as the respective disposal and processing pass through costs.

The consumer price index (CPI) adjustment based on the All-Urban Consumer Price Index for Riverside-San Bernardino-Ontario area is 2.61%. Trash and mixed organics disposal costs increased to \$71.29/ton and \$93.15/ton, respectively. The recyclables commodity market declined during 2024 resulting in a recycling processing cost increase for the 2025 rate year.

The trash service rates include an SB 1383 administration fee to cover the ongoing program costs including tracking and recordkeeping, annual reporting, contamination monitoring, education and outreach, procurement, container labeling and other required items.

New services include Residential Barrel Pull Out Services, increased Commercial Recycling Barrel Service frequencies, and an Additional Street Sweeping Service hourly rate.

Thank you for your consideration.

Sincerely,

Michael Heftman
Vice President of Municipal Services
