

## Rate Schedule - Water and Wastewater 2023/2024

Effective October 01, 2023

| Residential & Commercial              |         | Standby Charge              |
|---------------------------------------|---------|-----------------------------|
| <u>Meter Size</u>                     |         | <u>2023/2024</u>            |
| 5/8"                                  |         | \$34.33                     |
| 3/4"                                  |         | \$39.97                     |
| 1"                                    |         | \$51.24                     |
| 1 1/2"                                |         | \$79.41                     |
| 2"                                    |         | \$113.22                    |
| 3"                                    |         | \$220.29                    |
| 4"                                    |         | \$378.07                    |
| 6"                                    |         | \$755.61                    |
| ADU Charge                            |         | \$23.06                     |
| <u>Single-Family Residential Tier</u> |         | <i>1 unit = 748 gallons</i> |
| Units Per Tier:                       | Units   |                             |
| Tier 1                                | 0-13    | \$2.37                      |
| Tier 2                                | 14-24   | \$2.41                      |
| Tier 3                                | 25-9999 | \$2.60                      |
| <u>Multi-Family Residential Tier</u>  |         |                             |
| Units Per Tier:                       | Units   |                             |
| Tier 1                                | 0-8     | \$2.39                      |
| Tier 2                                | 9-9999  | \$2.45                      |
| <u>Commercial</u>                     |         |                             |
| Uniform                               |         | \$2.42                      |
| <u>Wastewater</u>                     |         |                             |
| Residential                           |         | \$29.55                     |
| Non-Residential                       |         | \$29.55                     |
| <u>Variable Rate</u>                  |         |                             |
| Non-Residential                       | 8-9999  | \$2.38                      |

*Note: The variable rate for non-residential wastewater customers is charged per unit of water consumed over 7 units.*
